

Global Spill & Safety

Over 90% of Global Spill & Safety products are made in Australia

Australia's future is Australian made

 Global Spill & Safety

THE AUSTRALIAN MADE DIFFERENCE:

Global Spill at a Glance

- Global Spill are an Australian manufacturer of spill and site safety equipment and have been manufacturing in Australia for 30 years.
- Local manufacturing means Global Spill have a secure and reliable product supply and are immune to currency fluctuations and shipping/port delays.

Global Spill's product range

- 90% of Global Spill's products are made in Australia. They design, engineer and manufacture locally to deliver a great quality product. Products are designed and manufactured in Australia to comply with relevant Australian Standards.
- The size of operations delivers economies of scale so they're able to deliver quality products at competitive market prices.
- The product range is designed for safety and reliability whether it's spill control, signage, dangerous goods storage or safety gear, products are designed to keep people safe and help protect the environment.

Absorbents and Spill Kits

- Global Spill & Safety are Australia's only manufacturer of polypropylene absorbents and wipes.
- Large inventory for guaranteed supply - continual supply means absorbents and spill kits are ALWAYS in stock and ready for delivery Australia wide.

Dangerous Goods Storage

- Global Spill & Safety have a dedicated metal fabrication unit and large in-house powder-coating/epoxy spray booth.
- Continual supply - in stock and ready for delivery Australia-wide.

Engineered Products

- Global's Australian factory employs local engineers and specialist trades.
- Custom fabrication of aluminium, steel and stainless steel, and plastic products is available.
- High frequency welding division means that all PVC products are welded (not stitched or glued) for added strength, durability and reliability.
- The Melbourne factory includes a chemical facility with R&D laboratory.

Global Spill & Safety 30 years on

- The company has evolved into a well-established Australian manufacturer and supplier with sales divisions and warehouses across Australia.
- The product range has expanded significantly over time to include spill kits, absorbents, spill containment and control, dangerous goods storage cabinets, site remediation, marine spill equipment, traffic and site safety gear.
