## COMPANY OPPORTUNITIES

### NAVAL GROUP - FUTURE SUBMARINE - SEA 1000

3 AUG

- *Expression of Interest - Naval Group*

Future Submarine Program

REGISTRATIONS OF INTEREST (GENERAL)

The general registrations of interest category will remain on the Naval Group ICN portal for a number of years. This general registration of interest against the procurement families and sub-families forms the database for a wide breadth of goods and services required for the Future Submarine. We encourage all suppliers to lodge a general registration of interest, in addition to any more specific Expression Of Interest (EOI) or Request For Information (RFI). Not all supplier engagement will be advertised so this baseline database provides all potential suppliers with the opportunity to be identified for engagement activities.

REQUESTS FOR INFORMATION

Requests for information will be open for a short period of time. This process involves the supplier providing a response around their capability and capacity to meet a particular technical requirement.

EXPRESSION OF INTEREST

Expressions of interest will also be open for a short period of time. The EOIs will enable suppliers to register their interest against a more specific technical requirement than those detailed in the general registration of interest. This will enable Naval Group to better identify the potential suppliers against its requirements.

Expressions of Interest are sort for the following work packages:

- Cable Transit Systems
- Underwater Cable
- Inboard junction box
- Underwater junction box
- Inline spliced cable
- Cable pieces
- Electric Sockets

- Exterior lights and navigation lights
- Switch Gear
- Test Bench
- Design and Manufacture - Electric Braking Motor
- Design and Manufacture - Rotating Shaftline and Braking System
- Design and Manufacture - Foundations for heavy equipment
- Fuel Plant
- Design and Manufacture - Enclosure for Safety and Noise Suppression
- Manufacturing Subcontracting
