# WHAT LIES BELOW

## Delivering integrated undersea solutions that secure the advantage

As the leader in undersea warfare solutions, L3Harris builds unparalleled, sovereign capabilities and solutions to address the Australian Defence Force's critical missions, superior maritime sensing, and real-time situational awareness by making the oceans transparent and building assured, secure, resilient communications for the fleet. We provide leading-edge C4ISR sustainment and undersea solutions building sovereign capabilities. As a trusted partner, L3Harris delivers confidence and enhances local industry capabilities through our global network and technologies. Our breakthrough technologies and capabilities stewardship solve our customer's toughest challenges, today and tomorrow.
