

NEW DEFENCE TENDERS THIS WEEK: 30 April 2020

DEFENCE SCIENCE AND TECHNOLOGY STRATEGY 2030

- Invitation to Register - Defence Science Institute

Australia faces an increasingly challenging and contested security environment over the next decade. The 2016 Defence White Paper outlined the Government's intent to ensure a regionally superior ADF with the highest levels of military capability and technological sophistication. To meet the challenges of our evolving context, DST has led the development of a new science and technology (S&T) strategy for Defence, in consultation with senior leadership across Defence, industry, academia and international partners. The Strategy will mark an important step in taking us into the future to deliver strategic advantage across the full spectrum of Defence capabilities. Focusing our national S&T enterprise on mission-directed research will ensure Defence is best positioned to realise capability advantage in a rapidly evolving environment. Pre-registration to receive the Defence Science and Technology Strategy 2030 is now open

Enquiries: Email: dst.events@dst.defence.gov.au

LATERAL THINKING CONTENT DEVELOPMENT AND DELIVERY

AARC 02-2020

19 MAY

- Expression of Interest - Defence Support and Reform Group

The Australian Army's Australian Army Research Centre (AARC) is developing MakerSpace concepts specifically the establishment of MakerSpace Facilitated Learning Areas in various locations. The AARC is interested in hearing from Australian companies/institutions who can develop a learning package to foster creative lateral thinking and problem-solving skills in a hands-on learning environment to support the learning of students who will be attending the Learning Areas. The package would be geared towards fostering innovative approaches to problem-solving, both materiel and intellectual, providing individual skill development and group-based processes that are user-focussed. The package will look to include a significant focus on creative content utilising exposure to computer-aided design, 3D scanning and printing, basic coding and robotics in a number of Creative Thinking Labs across Army. The selected company/institution would develop and deliver up to four workshops on Army establishments using Army equipment in a creative learning environment that fosters both individual and social learning focussed on the user. The workshops will take place in creative learning spaces designed for kinaesthetic/hands-on learning which could result in technical or organisational innovation.

Closing Date: 2:30 PM Tuesday 19 May 2020

Enquiries: Project Lead, Email: army.research@defence.gov.au

GENERIC SOLDIER ARCHITECTURE, INDUSTRY WORKING GROUP

AHQ-LNIC-ASGSA-02/20**21 MAY**

- Expression of Interest - Defence Support and Reform Group

The Department of Defence is inviting expressions of interest indicating your willingness to be a participant in the Land Network Integration Centre (LNIC) Generic Soldier Architecture (GSA) Engineering Working Group (EWG). Participation in the LNIC GSA EWG will involve reviewing the Australian GSA Standard documentation and participating in collaborative online discussions to comment on the GSA's current status, approach and technical direction. In particular, LNIC is seeking input from individuals and organisations who have expertise in software engineering, computer engineering, mechatronic engineering, dismounted soldier systems and emerging technologies. Army Headquarters, through the Land Network Integration Centre (LNIC) seeks to enhance soldier operational effectiveness via integrated, adaptable and affordable electronic soldier system infrastructure requirements. Development of DEF(AUST) Generic Soldier Architecture has commenced and will define power, data and related physical/ human factors architecture interface standards for the soldier platform. At its completion DEF(AUST) Generic Soldier Architecture will be implemented as the interface standard for soldier systems, sub-systems and hosted software procured and sustained for army. DEF(AUST) Generic Soldier Architecture will facilitate a data rich digital soldier platform environment, with open/ generic standards creating integration agility, interoperable soldier systems and sub-systems able to rapidly capitalize on frequent technology developments to enhance close combatant capability. LNIC is seeking expressions of interest from qualified parties with an interest in participating in an Engineering Working Group which will contribute to defining Data Interface Standards.

Closing Date: 2:00 PM Thursday 21 May 2020

Enquiries: AS-GSA Project Manager, Email: asgsa.office@defence.gov.au

Copies of EOI: www.tenders.gov.au

INTER TIDAL WORK PLATFORM

13187**26 MAY**

- Request for Tender - Defence Support and Reform Group

The Department of Defence is seeking tenders from suitably qualified contractors for the provision of a Inter Tidal Work Platform (ITWWP). The ITWP enables the safe conduct of JPEU trials for the testing and evaluation of defence war material in enclosed, coastal and tidal flats areas (greater than 3 NM from land). Its tasks will include but will not be limited to; sentry and drop zone safety officer, intruder interception, over water recovery of ammunition, setting up of targets, transport of personnel and equipment, as well as providing a safety craft with range and endurance to facilitate the provision of first aid and emergency evacuation in a unique environment.

NATIONAL PLAN CAPABILITY ASSESSMENT

20AMSA057**2 JUN**

- *Request for Tender - Australian Maritime Safety Authority*

Australian Maritime Safety Authority is seeking tenders from suitably qualified contractors for a single Service Provider that is able to provide an assessment of national capability under the National Plan for Maritime Environmental Emergencies. The purpose of the Statement of Capability will be to:

- develop a clear understanding of what capability is available under the National Plan arrangements and how it will be applied in each jurisdiction.
- assess what the capability can achieve in terms that are relevant to the industries, organisations and state/territory governments that are the Plan's stakeholders and clearly articulate:
 - the intent and effect of each element of capability, distinguishing between local, national and international resources; and
 - a qualitative (or quantitative if possible) understanding of its capacity

Closing Date: 2:00 PM Tuesday 2 June 2020

Enquiries: Procurement, Tel: (02) 6279 5027, Email: contracts-enquiries@amsa.gov.au

Copies of RFT: www.tenders.gov.au

COMMUNITY NURSING SERVICES

CNS16

30 JUN

- Request for Tender - Department of Veterans' Affairs

The Repatriation Commission and the Military Rehabilitation and Compensation Commission (collectively referred to as DVA) currently have Community Nursing Services Agreements expiring on 30 June 2016. The aim of DVA's Community Nursing Program is to enhance the independence and health outcomes of an entitled person by avoiding early admission to hospital and/or residential care by providing access to community nursing services to meet an entitled person's assessed clinical and/or personal care needs. These community nursing services are delivered by a skills mix of registered nurses, enrolled nurses and nursing support staff. DVA is inviting suitably qualified organisations to provide community nursing services to the veteran community.

Closing Date: 12:00 PM Tuesday 30 June 2020

Enquiries: Project Manager, Email: CN.AGREEMENT@dva.gov.au

Copies of RFT: www.tenders.gov.au

COMPANY OPPORTUNITIES

PROVISION OF AIR WEAPONS HANDLING SYSTEM

8 MAY

- Expression of Interest - BAE Systems Australia Limited

ASC Shipbuilding are seeking Expressions of Interest (EOI) for the provision of the Air Weapons Handling System (AWHS) which consists of the following components and subsystems:

- Racking or alternative appropriate magazine stowage system to accommodate a range of weapons, including torpedoes and air launched missiles;
- Handler system to move weapons into, and out of, the magazine stowage system; and
- Integration with existing platform services.

In addition to the provision of the AWHS, the AWHS supplier shall also develop AWHS simulation as OQE for acceptance, and training packages for on-board training.

Closing Date: Friday 8 May 2020

Enquiries: Samantha Van Bochove, Tel: (08) 3032 046, Email: samantha.vanbochove@sa.gov.au

Enquiries: Jeff Camburn, ICN SA, Tel: (08) 8303 2054, Email: jeff.camburn@sa.gov.au

Enquiries: Bettina Venner, Tel: (08) 8303 2056, Email: bettina.venner@sa.gov.au
