

NEW DEFENCE TENDERS THIS WEEK: 1 November

INDUSTRY BRIEFING SESSIONS ESTATE WORKS PROGRAM

DEWPO IB1-2018

- Notice - Defence Support and Reform Group

The Department of Defence, Directorate of Estate Works Program Office (DEWPO) delivers an annual Estate Works Program (EWP) of building, infrastructure and maintenance related projects at Defence sites across Australia (including major bases, minor sites, training areas and leased facilities).

Projects range from small to medium value, simple to complex, single to multi-site, delivered across a regional, state or national basis.

Projects are delivered on existing or greenfield sites and may include design services, construction works, civil works, environmental and heritage management works, remediation works (e.g. asbestos, contamination), and consultancies.

Industry briefing sessions will be provided over the period 12 November – 22 November 2018 to provide industry with an overview of the industry engagement process for EWP projects and an indication of upcoming work within each region. Each briefing session will be in two parts and will cover the following:

Part 1

- An overview of the EWP procurement process;
- Commonwealth policy and tendering requirements;
- How industry can keep informed regarding EWP opportunities; and
- An overview, by region, of upcoming opportunities

Part 2

- Guidance on how to respond to a tender opportunity

Industry Briefing: An Industry Briefing will be held at **Australian Institute of Sport, 'The Charlesworth Theatre', Building 14, Leverrier Street**

AIS Campus, Bruce, Canberra, ACT from 8:30 AM to 12:30 PM on Monday 12 November 2018.

And at Rydges Hotel, "The Surry", 28 Albion Street, Surry Hills, Sydney, NSW from 8:30 AM to 12:30 PM on Tuesday 13 November 2018.

And at Four Points Sheraton Hotel, "Freemantle Ballroom", 707 Wellington Street, Perth, WA from 12:30 PM to 4:30 PM on Tuesday 13 November 2018.

And at Skycity Casino, "Grand Ballroom", Mindil Beach, Gilruth Avenue, Darwin, NT from 8:30 AM to 12:30 PM on Thursday 15 November 2018.

And at Grange Golf Club, "Grange Room", White Sands Drive, Adelaide SA from 8:30 AM to 12:30 PM on Tuesday 20 November 2018.

And at Nudgee Golf Club, "Vineyard Room", 1207 Nudgee Road, Nudgee, Brisbane Qld from 8:30 AM to 12:30 PM on Thursday 22 November 2018.

And at Bayview Eden, "Parkside 4", 6 Queens Road, Melbourne Vic from 8:30 AM to 12:30 PM on Thursday 22 November 2018.

JP9347 MTN SUB-PROGRAM NOTICE TO INDUSTRY

JSD/NOT/8163/1

- Notice -

The JP9347 Program will be discussed at both the Tactical Data Link (TDL) Summit (on 12 November 2018) and Military Communications and Information Systems (MilCIS) Conference (on 15 November 2018) in Canberra, ACT. Defence will present program details to industry and conduct one on one meetings in conjunction with the TDL Summit and MilCIS. One on one sessions will occur on Wednesday 14 November 2018 and, if needed, Friday 16 November 2018. The purpose of the presentations and meetings is to provide industry attendees with accurate and consistent information including an overview of the project scope and objectives. Defence intends to gather information, and analyse industry capability and capacity to provide support to JP9347. This will also provide an overview of how Defence intends to foster a more productive and enduring relationship with industry as a partner.

The brief will be unclassified and a separate opportunity for one-on-one discussions will be available.

One-on-One Briefing Session: One on one meetings will be held at the Tactical Data Link Summit and Military Communication and Information Systems Conference on Wednesday 14 November 2018. Tenderers must contact the Enquiries Officer by submitting the registration form by email, by 4:30 PM on Tuesday 6 November 2018 if wishing to attend.

Enquiries: JP9347 Project Manager,

Email: JP9347.1@defence.gov.au

LAND 200 INFORMATION SESSION AT MILITARY COMMUNICATION AND INFORMATION SYSTEMS CONFERENCE (MILCIS) 2018

JSD/IB/7320/1

16 NOV

- Industry Briefing - Capability Acquisition and Sustainment Group

The Information Session will be conducted in Canberra in conjunction with the Military Communication and Information Systems Conference. The Information Session will be conducted by the Capability Manager and the Capability Acquisition and Sustainment Group.

This Information Session will update industry on progress of the Land 200 Battlefield Command System Program and future Phase 3 requirements. Land 200 is at the heart of Army's military digital evolution for the 21st century and has been delivering the Battlefield Command System capability into Defence since 2011. This capability provides Army with tactical digital radios and an integrated Battle Management System that is transforming command and control of Land forces from a paper-based system to a modern digital system.

Land 200 will improve the Australian Defence Force's interoperability with Joint, Allied and Coalition forces. With Phase 1 complete and Phase 2 currently being delivered, Defence is looking to the future at Phase 3 and what will be required to complete the digitalisation of the Land force.

Defence is currently gathering information and analysing industry's current and potential capability and capacity to provide support to LAND 200 Phase 3, including development, manufacture, integration, supply, adaptation, sustainment and disposal of BCS mission systems.

Vendors are invited to discuss their intentions to be a prime contractor, prime systems integrator

(PSI), original equipment manufacturer (OEM) or major systems supplier for this project with representatives of the Capability Manager and the Capability Acquisition and Sustainment Group.
Individual Consultations: Individual Consultations will be held at **MilCIS with vendors at their exhibit**. Tenderers must contact the Enquiries Officer by email, by 4:00 PM on Friday 9 November 2018 if wishing to attend.

Closing Date: 4:30 PM Friday 16 November 2018

Enquiries: LAND 200 Phase 3 Project,
Email: land200.phase3@defence.gov.au

JOINT PROJECT 9111 JOINT COMMAND AND CONTROL REQUEST FOR INFORMATION

JSD/RFI/8022/1**7 DEC**

- *Request for Information - Capability Acquisition and Sustainment Group*

The purpose of this RFI is to inform industry of JP 9111 and seek industry feedback on their interest and ability to engage as a strategic partner with Defence. JP 9111 aims to provide a Joint Command and Control (Joint C2) information environment to support the planning and execution of operations and exercises at all levels of command, either independently, as part of an Australian-led coalition, or as a component of a wider Five Eyes coalition. JP 9111 has a number of responsibilities:

- a. acquisition, delivery and sustainment of certain military specific software;
- b. integration of software and services provided by other projects;
- c. development of bespoke software for specific needs; and
- d. delivery of underlying infrastructure if and where necessary.

JP 9111 will also establish the organisations and processes that ensure the Joint C2 capability is able to meet evolving threats and leverage emerging technology opportunities over the life of the project.

Closing Date: 4:00 PM Friday 7 December 2018

Enquiries: JP9111 Integrated Project Manager,

JOINT HEALTH COMMAND GARRISON FACILITIES UPGRADE PROJECT – PUCKAPUNYAL, VIC

AZ6101**11 DEC**

- Request for Information - Head Contractor Contract (HC -1 2003) - Project No: J0105

The J0105 Joint Health Command Garrison Health Facilities Upgrade Project (the Project) will upgrade and consolidate certain Australian Defence Force (ADF) health centres around Australia. This will include construction of new facilities as well as refurbishment of existing facilities, to improve the delivery of health services to ADF personnel. The project aims to provide fit-for-purpose, contemporary healthcare facilities as part of a comprehensive infrastructure solution intended to address deficiencies around condition and functionality of priority Joint Health Command facilities, providing primary health and associated health care to Australian Defence Force (ADF) personnel around Australia. The works involved include construction services for a range of new build and refurbishment of existing health centre solutions. It will include demolition of some existing health centres.

A new health centre at Puckapunyal will be constructed on a vacant site (an unused sporting oval) on the corner of Mont St Quentin Road and Morobe Road, based on a fully documented design. The existing Health Centre will be demolished upon completion and transition into the new facility. The single storey building is approximately 1,700m² and will be a steel framed structure with a steel roof and will include services and finishes typical of modern health facilities. It will be a comprehensive modern health facility similar to a General Practice Super-Clinic with aspects of a regional hospital.

The preferred contractor will be employed under the Head Contractor Contract (Construct Only).

Estimated Value: From \$20,000,000 to \$25,000,000

Closing Date: 12:00 PM Tuesday 11 December 2018

Enquiries: Kristian Wheeler (Aurecon Group), Mob: 0407 990 299, Fax: (03) 9975 3444,

Email: J0105jhc@aurecongroup.com

JOINT HEALTH COMMAND GARRISON FACILITIES UPGRADE PROJECT – SIMPSON, VIC

AZ6102**11 DEC**

- Request for Information - Head Contractor Contract (HC -1 2003) - Project No: J0105

The J0105 Joint Health Command Garrison Health Facilities Upgrade Project (the Project) will upgrade and consolidate certain Australian Defence Force (ADF) health centres around Australia. This will include construction of new facilities as well as refurbishment of existing facilities, to improve the delivery of health services to ADF personnel. The project aims to provide fit-for-purpose, contemporary healthcare facilities as part of a comprehensive infrastructure solution intended to address deficiencies around condition and functionality of priority Joint Health Command facilities, providing primary health and associated health care to Australian Defence Force (ADF) personnel around Australia. The works involved include construction services for a range of new build and refurbishment of existing health centre solutions. It will include demolition of some existing health centres.

A new health centre at Simpson Barracks will be constructed on a sloped site adjacent to the existing Simpson Health Centre. The existing Health Centre will be demolished, and converted into a carpark, upon completion and transition into the new facility. During the works, a portion of the existing facility will be required to be demolished, while maintaining operations to the remainder of the facility, to allow for construction of the new facility. This will require appropriate site coordination/management by the contractor. The single storey building is approximately 1,600m² and will be a steel framed structure with a steel roof and will include services and finishes typical of modern health facilities. It will be a comprehensive modern health facility similar to a General Practice Super-Clinic with aspects of a regional hospital.

The preferred contractor will be employed under the Head Contractor Contract (Construct Only).

Estimated Value: From \$16,000,000 to \$21,000,000

Closing Date: 12:00 PM Tuesday 11 December 2018

Enquiries: Kristian Wheeler (Aurecon Group), Mob: 0407 990 299, Fax: (03) 9975 3444,

JOINT HEALTH COMMAND GARRISON FACILITIES UPGRADE PROJECT – OAKLEY, QLD

AZ6116**11 DEC**

- Request for Information - Head Contractor Contract (HC -1 2003) - Project No: J0105

The J0105 Joint Health Command Garrison Health Facilities Upgrade Project (the Project) will upgrade and consolidate certain Australian Defence Force (ADF) health centres around Australia. This will include construction of new facilities as well as refurbishment of existing facilities, to improve the delivery of health services to ADF personnel. The project aims to provide fit-for-purpose, contemporary healthcare facilities as part of a comprehensive infrastructure solution intended to address deficiencies around condition and functionality of priority Joint Health Command facilities, providing primary health and associated health care to Australian Defence Force (ADF) personnel around Australia. The works involved include construction services for a range of new build and refurbishment of existing health centre solutions. It will include demolition of some existing health centres.

The existing health centre is located at Swartz Barracks and will be decommissioned, and a new health centre will be constructed closer to the flight line. The new health centre will be constructed at a new site within Swartz Barracks, on which a records store currently stands. The records store is to be demolished, and the new health centre is to be built based on a fully documented design.

The existing OAKHC will also be demolished under the contract with the existing facilities to continue to operate until the new health centre is fully operational. OAKHC will be a single storey health centre building that is approximately 1100 m2 and will be a steel framed structure with a steel roof and will include services and finishes typical of modern health facilities. An additional approximately 800 m2 will be allocated to carparking. It will be a comprehensive and modern health facility, similar to that of a General Practice Super-Clinic.

The preferred contractor will be employed under the Head Contractor Contract (Construct Only).

Estimated Value: From \$10,000,000 to \$15,000,000

Closing Date: 12:00 PM Tuesday 11 December 2018

Enquiries: Kristian Wheeler (Aurecon Group), Mob: 0407 990 299, Fax: (03) 9975 3444,

JOINT HEALTH COMMAND GARRISON FACILITIES UPGRADE PROJECT – ENOGGERA, QLD

AZ6117**11 DEC**

- Request for Information - Head Contractor Contract (HC -1 2003) - Project No: J0105

The J0105 Joint Health Command Garrison Health Facilities Upgrade Project (the Project) will upgrade and consolidate certain Australian Defence Force (ADF) health centres around Australia. This will include construction of new facilities as well as refurbishment of existing facilities, to improve the delivery of health services to ADF personnel. The project aims to provide fit-for-purpose, contemporary healthcare facilities as part of a comprehensive infrastructure solution intended to address deficiencies around condition and functionality of priority Joint Health Command facilities, providing primary health and associated health care to Australian Defence Force (ADF) personnel around Australia. The works involved include construction services for a range of new build and refurbishment of existing health centre solutions. It will include demolition of some existing health centres.

This project will refurbish the EHC at Gallipoli Barracks to improve efficiency based on a fully documented design. EHC is a major refurbishment which will relocate the dental services into the health centre, and shut down the Enoggera Clinic, and Enoggera Clinic East. Dental services are currently delivered from a building that is no longer fit for purpose. The scope of this work includes relocating the dental service from the existing dental building into the main health centre, and re-organising the primary care department including reception, waiting area, pharmacy, consulting rooms, treatment bays, interview rooms, support and administration spaces. This will modernise the facility and improve functional efficiencies. The approximate floor area for the refurbishment is 1860m2. All services currently delivered from the primary care department will need to continue throughout construction. Therefore, staging and decanting will be required throughout construction.

The preferred contractor will be employed under the Head Contractor Contract (Construct Only).

Estimated Value: From \$12,000,000 to \$17,000,000

Closing Date: 12:00 PM Tuesday 11 December 2018

Enquiries: Kristian Wheeler (Aurecon Group), Mob: 0407 990 299, Fax: (03) 9975 3444,

JOINT HEALTH COMMAND GARRISON FACILITIES UPGRADE PROJECT – TOWNSVILLE, QLD

AZ6118
11 DEC

- *Request for Information - Head Contractor Contract (HC -1 2003) - Project No: J0105*

The J0105 Joint Health Command Garrison Health Facilities Upgrade Project (the Project) will upgrade and consolidate certain Australian Defence Force (ADF) health centres around Australia. This will include construction of new facilities as well as refurbishment of existing facilities, to improve the delivery of health services to ADF personnel. The project aims to provide fit-for-purpose, contemporary healthcare facilities as part of a comprehensive infrastructure solution intended to address deficiencies around condition and functionality of priority Joint Health Command facilities, providing primary health and associated health care to Australian Defence Force (ADF) personnel around Australia. The works involved include construction services for a range of new build and refurbishment of existing health centre solutions. It will include demolition of some existing health centres.

The existing health centre is located at RAAF Base Townsville, and will be decommissioned, and a new health centre will be constructed over the existing Airmen's Mess based on a fully documented design. As part of the construction, the Airmen's mess will be demolished, as well as existing ablutions adjacent to the Spotless building. The new build will be a single storey building at approximately 1000m². It will be a steel framed structure with a steel roof and will include services and finishes typical of modern health facilities. Existing facilities will continue to operate and the existing health centre will only be demolished upon completion of the new health centre. The contractor will be responsible for protecting the existing operational health centre whilst demolition and construction works are in progress. It will be a comprehensive modern health facility similar to a General Practice Super-Clinic.

The preferred contractor will be employed under the Head Contractor Contract (Construct Only).

Estimated Value: From \$12000000 to \$17000000

Closing Date: 12:00 PM Tuesday 11 December 2018

DEFENCE TENDERS – AMENDMENTS

JP2060 PHASE 4 - ADF HEALTH KNOWLEDGE MANAGEMENT SOLUTION - INDUSTRY BRIEFING

CASG/JSD/IB/7786/1
30 NOV

Ext. From 31 Oct

- *Notice - Capability Acquisition and Sustainment Group*

The Department of Defence will provide a brief to industry on the approach to market for JP2060 Phase 4, for the acquisition and sustainment of a Health Knowledge Management (HKM) solution. The aim of JP2060 Phase 4 is to deliver a HKM solution to provide readily accessible health knowledge including patient clinical information to support timely, efficient and effective health care, in connected and disconnected, non-deployed and deployed contexts.

The brief will be presented at the Adams Auditorium (Building 111), ADFA in Canberra from 09:00 - 11:00 on Thursday 11 October 2018. The purpose of the brief is to provide industry attendees with an overview of the project scope, explain the findings from the recent Request for Information conducted by Defence in Q1 2018 (CASG/JSD/RFI0059/18) and provide detail on Defence's proposed acquisition and sustainment strategy for the HKM capability.

The Industry Brief is being provided as a precursor to an upcoming Request for Tender, proposed for release in Quarter 1 of 2019. It is intended to provide up-to-date information to industry on the project and to ensure all opportunities for engagement are explored.

The brief will be unclassified. Defence welcomes questions from industry respondents after the industry brief.

Industry Briefing: An Industry Briefing will be held at **ADFA, Canberra from 9:00 AM to 11:00 AM on Thursday 11 October 2018**. Tenderers must contact the Enquiries Officer by email, by 4:30 PM on Friday 5 October 2018 if wishing to attend.

Closing Date: 4:30 PM Friday 30 November 2018

Contact: JP2060-4 Commercial Adviser,

PRESSURE HULL COLLAPSE TESTING PROJECT

RFT 6023

18 JAN

Ext. From 14 Dec

- Request for Tender - Defence Support and Reform Group (DSRG)

The Defence Science and Technology (DST) Group is seeking to verify and validate software tools and procedures that will be used for qualification and acceptance of the pressure hull design of the Future Submarine (FSM). DST intends to obtain the data required for validation by undertaking a Collapse Testing Project (CTP) involving the design, construction, measurement, monitoring, testing to collapse, and disposal of three, large ring-stiffened cylinders.

The aim of the Pressure Hull Collapse Testing Project is for the Commonwealth of Australia (CoA) to undertake collapse testing of three large, ring stiffened cylinders in order to validate design assessment tools that will be used for assurance and acceptance of the FSM pressure hull and management of through-life structural issues and design changes.

The test models will be as large as possible so as to minimise scaling effects and it is assumed that the tests will be carried out at an overseas facility as no suitable hydrostatic pressure test chamber presently exists within Australia. In so far as practical, it is preferred that the test cylinders, end enclosures and peripheral equipment be constructed in Australia; these would then be shipped

overseas in commercial inter-modal shipping containers. Dimensional measurement of the cylinders and end-enclosures will be carried during and at the completion of fabrication. Measurements of the outer surface will also be required (at or near the testing facility) to confirm that no changes have occurred during transit and to map the collapsed shape of the cylinders after testing. The installation, set-to-work, and operation of the monitoring system used for the tests will be carried out in close proximity to where the testing is conducted.

Industry Briefing: An Industry Briefing will be held at **DST, 506 Lorimer Street, Fishermans Bend Vic from 9:00 AM on Tuesday 23 October 2018**. Nominations to attend the briefing are to be forwarded in writing to the Enquiries Officer by 9:00 AM on Tuesday 9 October 2018 if wishing to attend.

Timeframe for delivery: All three collapse tests must be completed by 30 June 2022.

Closing Date: 2:00 PM Friday 18 January 2019

Enquiries: Roger O'Leary, Tel: (08) 7383 0185,

COMPANY OPPORTUNITIES

COLLINS CLASS SUBMARINE - PROPULSION CONTROL CONSOLE (PCC) AND DIVING & SAFETY CONSOLE (DSC)

11 NOV

- Expression of Interest - ASC Pty Ltd

Expressions of Interest (EOI) are sought from industry with appropriate capabilities and experience for the assessment, redesign, manufacturing and replacement of modules within the control consoles fitted on-board the Collins Class Submarines (CCSM). The consoles consist of backlit mimic panels with gauges, indicators and switches for hardwired control of machinery. The assessment is required to determine age degradation & obsolescence of the existing components (console internal cabling is to be included in the assessment). Redesign and replacement of modules will be dictated by the results of the assessment.

The project aims to address any obsolescence and age degradation issues by:

- Performing condition assessments as described above;
- Procuring new equipment to meet fit, form and functional requirements in accordance with ASC Technical Procurement Specifications;
- Implementation of new equipment; and
- Qualification and acceptance testing of any new or modified equipment.

Closing Date: Sunday 11 November 2018

DIGITAL TRANSFORMATION CAPABILITY ASSESSMENT

15 NOV

- Expression of Interest - ASC Pty Ltd

ASC is seeking to initiate a Digital Transformation Program (Program) aimed at delivering key improvements to foundational technology, data and digital innovation embedded through process and organisational change.

This Expression of Interest (EOI) seeks to undertake a Digital Transformation Capability Assessment of suitable organisations within the market. The EOI represents the first phase of a procurement strategy, with subsequent phases subject to funding approval of the overall Program. In line with operational timings of ASC, the Program is recommended to commence implementation in May 2019 over a three (3) year period delivered across two (2) phases, and aims to deliver both qualitative and quantifiable benefits to ASC.

A high level Roadmap of the proposed implementation phases has been provided to highlight the anticipated approach to key business and technology change projects associated with the Program (noting that ASC are undertaking preparation activities to enable implementation to commence in May 2019).

Due to the nature of the Program, ASC will require the establishment key strategic partnerships with suitable organisations to assist in the implementation and management of required services (as detailed below), including:

- Program Management
- Organisational Change Management
- Training & Development
- Business Design
- Data Transformation
- System Integration

While it is subject to change, it is estimated that the peak demand for full time equivalent (FTE's) resources required to undertake the required services will occur in quarter 2, financial year 2020 at approximately 200 FTE's, with average demand over the full three (3) year program being approximately 100 FTE's (noting ratio of external to internal resources has been estimated at 80:20). Respondents should use this as a guide of scale, however should note that these numbers are likely to change and will be dependent on the level of funding approved and the organisation(s) partnered with.

In responding to the EOI, Suppliers are encouraged to outline innovative methodologies and strategic partnership models that would enable the successful implementation and realisation of benefits associated with a Digital Transformation project. All possible combinations of services and organisational structures will be considered by ASC.
