DEFENCE ESTATE INVESTMENT STREAMS - INFORMATION SESSION - ROCKHAMPTON, QLD

IB ROCKHAMPTON

- Notice - Defence Support and Reform Group

The Department of Defence undertakes a range of Estate related Operations, Sustainment and Development activities to support broader Defence capability outcomes and environmental obligations.

This information Session is aimed at providing local industry with advice on the various programs, how they are structured, and how industry can engage with Defence and Defence Contractors in the delivery of these programs.

The session will cover Estate Upkeep, Estate Maintenance and Operations, Estate Works (Minor and Medium Projects, known as the EWP) and the Capital Facilities and Infrastructure delivered Major Projects.

The briefing will provide industry with an overview of the following:

- How the programs are developed on a yearly or multi-year basis;
- Key stakeholders;
- The procurement process;
- Commonwealth policy and tendering requirements including the Indigenous Procurement Policy;
- Defence policies and contracting suite; and
- How industry can keep informed of opportunities.

There is no need to pre-register for the briefing however attendees will be required to register their attendance upon arrival.

Industry Briefing: An Industry Briefing will be held at **Travelodge Hotel Rockhampton, 86**

Victoria Parade Rockhampton, Qld from 7:30 AM to 9:00 AM on Friday 8 March 2019. There is no need to pre-register.

Enquiries: Procurement, Tel: (02) 6217 8555,

Email: procurement@dha.gov.au

Copies of Notice: www.tenders.gov.au

CINEMA REFURBISHMENT - RAAF RICHMOND, NSW

NN12406**18 MAR**

- Request for Tender - Medium Works Contract (EWP MEWC -1 2014) - Project No: NN12406

OTHER GOVERNMENT DEPARTMENT TENDERS

ESTABLISHMENT OF TRADES PANEL

QRP1918STAGE1

8 MAR

- *Application for Pre-qualification - Queensland Rail Limited*

There is a requirement for Queensland Rail to establish a panel of contractors for various trades to replace the current Trades and Services Panel which is due to expire in 2019.

Queensland Rail is conducting a two-staged process to establish the Trades Panel as follows:

Stage 1 - Pre-qualification of suitably qualified and experienced contractors under Queensland Rail's Contractor Safety and Environment Management (CSEM) Program.

Stage 2 - Request for tender issued to all pre-qualified contractors for the Establishment of the Trades Panel

This process is only for Stage 1 (Pre-Qualification). It aims at pre-qualifying contractors prior to them being invited to tender for the Trades Panel.

Closing Date: 2:00 PM Friday 8 March 2019

ENGINEERING DESIGN DISCIPLINES

REOI2019/0170**26 MAR**

- Expression of Interest - Australian War Memorial

On 1 November 2018 the Australian Government has approved the Australian War Memorial ('Memorial') Redevelopment Project (the Project) with funding of \$498.7 million over a nine year period commencing in 2019/20.

The aim of this procurement is to select engineering design discipline consultants to provide building engineering services for the Project.

The Project will construct additional exhibition capacity to enable the Memorial to effectively tell the stories of Australian experiences of conflict and operations, in a manner that preserves the national significance of the Memorial whilst enhancing the visitor experience.

The Memorial has established seven objectives for the Project. These objectives are:

1. maintain the Memorial's national significance;
2. remediate existing constraints;
3. enhanced gallery spaces;
4. improved visitor experience;
5. improve the connection between the Australian War Memorial and community memorials;
6. create information and reflective spaces for service men and women and their families; and
7. protect and showcase the National Collection.

The scope of services under the proposed contract (s) includes the engineering design services for the engineering disciplines required for the Project.

The Mandatory Evaluation criteria include: a. Minimum Content and Format Requirements; and b. Conditions for Participation. Responses for each Engineering Design Discipline nominated will be evaluated against the following Evaluation Criteria:

1. Exemplar Projects A description of three projects that best demonstrates the capability and expertise of the Respondent for the specific challenges and opportunities for that Engineering Design Discipline for the Project 45%.
2. Project History A description of between 7 and 10 projects (separate to exemplar projects) that demonstrate the depth of experience and capacity of the Respondent in projects similar to the Project for the relevant Engineering Design Discipline 35%.
3. Organisational Capacity This includes a description of how the Respondent could provide the services with an appropriate degree of interface with the Memorial and other consultants 20%.

Industry Briefing: An Industry Briefing will be held at **BAE Systems Theatre, Australian War Memorial, Campbell, ACT from 1:50 PM on Wednesday 6 March 2019**. Registered Respondents must pre-register their attendance at the industry briefing by emailing redvelopment@awm.gov.au by 5:00 PM on Tuesday 5 March 2019 if wishing to attend.

Closing Date: 2:00 PM Tuesday 26 March 2019

Enquiries: Tim Wise,

COMPANY OPPORTUNITIES

INTRODUCTION TO FLIGHT SIMULATOR EVALUATION, QUALIFICATION AND GOVERNANCE COURSE

- Notice - Nova Systems

Introduction to Flight Simulator Evaluation, Qualification and Governance (FSEQG)

This theory only course has been developed for professionals who are involved in the acquisition, commissioning, qualification, and in-service support of civil and military flight simulation training devices. This course provides the underpinning skills and knowledge relating to regulatory standards and requirements, data analysis methods, qualification test guide design, basic flight dynamics, and the on-going fidelity checking requirements required to maintain regulatory compliance for qualified training devices. Personnel who have completed this introductory course may be given credit towards the completion of the Nova Systems full six-day course in the Evaluation of Synthetic Training Devices (EoSTD) which is recognised by the Australian Civil Aviation Safety Authority as satisfying the training requirement contained in CASR Part 60 for personnel conducting initial and recurrent qualification of synthetic training devices.

Introduction:

This three-day theory only course has been developed for professionals who are involved in the acquisition, commissioning, qualification, and in-service support of civil and military flight simulation training devices. This course provides the underpinning skills and knowledge relating to regulatory standards and requirements, data analysis methods, qualification test guide design, basic flight dynamics, and the on-going fidelity checking requirements required to maintain regulatory compliance for qualified training devices. Personnel who have completed this introductory course may be given credit towards the completion of the Nova Systems full six-day course in the Evaluation of Synthetic Training Devices (EoSTD) which is recognised by the Australian Civil Aviation Safety Authority as satisfying the training requirement contained in CASR Part 60 for personnel conducting initial and recurrent qualification of synthetic training devices.

Target Audience:

Professional engineers and managers who are involved in the acquisition, commissioning, qualification, and in-service support of civil and military flight simulation training devices.

Professional Pilots involved in initial and recurrent simulator evaluations.

Technicians who support ongoing fidelity checking programs.

Learning Outcomes:

Understand simulated flight deck fidelity requirements

Understand motion system requirements

Understand the principals of image generation and projection

Understand control Loading System characteristics

Understand mission system fidelity needs

Understand the principals of simulated sounds and special effects

Describe the current Australian military regulations relating to flight simulation training devices

Identify the Civil Aviation Safety Regulations and acceptable means of compliance

Describe the principals of validation testing

Describe the principals of function and subjective testing

The Flight Simulator Evaluation, Qualification and Governance course is scheduled to be held 14 – 16 May 2019 in Melbourne and 3 – 5 September in Canberra.

HUNTER CLASS FRIGATE PROGRAM**15 MAR**

- *Expression of Interest - BAE Systems Australia Limited*

Supplier Engagement Forum for Cat C & D products and services for Hunter Class Frigate Program

BAE Systems - Hunter Class Frigate Program are seeking expressions of interest to attend a supplier engagement forum planned to be held in Adelaide, June 2019.

The purpose of the forum is to update our Australian Supplier Base of the current project status.

This will include the anticipated method and schedule releases of work packages.

Companies can nominate up to 2 representatives to attend the forum, by following the link.

However, please note dependent upon interest received, attendance numbers may be limited to a single representative from companies.

A formal invitation will be emailed once final numbers are confirmed, which will include the date, timing and venue. It is envisaged that this will be a half day forum.

This forum will be targeting (but not exclusive of) the following areas:

Cat C:

- Steel and Aluminium plates
- Fabrication (Steel and Aluminium)
- Pipe (Steel, Cu, CuNi, Stainless Steel, GRE) and assoc fittings

- Pipe Supports
- Electrical Cable, cable racking and assoc parts
- Fasteners / Gaskets / Weld studs
- Gratings
- General consumable material for shipbuilding
- Flexible hoses
- Bulkhead penetrations and packing
- Warning and notice signs/general labels
- Shock mounts
- Awnings and equipment covers

Cat D:

- Cable reeving
- Supply and installation of insulation
- Abrasive blast & paint application
- HVAC Duct Fab and install
- Ship Outfitting – furniture, bulkheads, linings, doors, ceilings, etc
- Deck Coverings
- In-situ Machining
- Application of Limpetite Coating
- Installation of “Blown Fibre” cables
- NDT – Structure and piping,
- Fab and Install of GRP Piping

Closing Date: Friday 15 March 2019

Copies of EOI: <https://gateway.icn.org.au/project/3848/bae-systems-hunter-class-frigate-program?st=projects&psid=1551234430>

NEW ZEALAND TENDERS

DEFENCE NATIONAL FLEET DISPOSAL SERVICES

RFX_1688**26 MAR**

- Request for Proposal - New Zealand Defence Force

The New Zealand Defence Force (NZDF) National Disposal Office (NDO) requires and experienced supplier to manage significant disposals and project manage other related initiatives. The key objective of this procurement is to secure the services of a supplier with experience in national fleet disposal, and international contract development and negotiation, to assist in regard to these types of activities.

The requirement is to enter into a contract with a suitable supplier to oversee major fleet disposals while ensuring full cognisance of NZDF's processes, international responsibilities, are completed in such a manner as not to introduce risk to NZDF, maximise best value returns, minimise physical disposal costs where nil returns are generated, and provide advice on best practice disposal policies and procedures.

The contract will be for a period of 10 years (8 + 2 years).

Closing Date: 5:00 PM Tuesday 26 March 2019

Enquiries: Helen Rudman
