

TOP 40 AND TOP 20 SMES 2020 PROJECT REVIEW

The December 2020-January 2021 edition of *ADM* contains the magazine's much-anticipated annual Top 40 Defence Contractors and Top 20 SMEs survey, and our editorial team's annual review and preview of Australia's major defence projects. 2020 has been such a crossroads year with COVID-19 and major policy updates and we are looking forward to seeing how Defence Industry weathered the storm.

The only survey of its kind, the Top 40 and Top 20 lists are an important data set in the state of the Defence Industry in Australia, running for over 20 years.

Please contact *ADM* Managing Editor Katherine Ziesing at katherineziesing@yaffa.com.au or call 02 6203 9535 for more details about taking part.

Project Review

Which major projects have shaped 2020, for better or for worse? *ADM* intends to examine the progress of a range of projects across the land, air, sea and joint domains including: F-35 Joint Strike Fighter, Future Shipbuilding Programs, Helicopters, Land 400, Space and Satcomms.
