DEFENCE MARINE SUPPORT SERVICES PROGRAM

RFI_6814_NAVY_FCMD

15 OCT

- Expression of Interest - Defence Support and Reform Group

This Request for Information (RFI) is intended to inform a potential future procurement process.

Participation in this RFI is NOT a pre-condition to participation in a future procurement process.

Department of Defence is seeking Requests for Information (RFI) in relation to the Defence Marine Support Services (DMSS) Program.

This RFI relates to the provision of marine support to Defence (primarily Navy) and potentially other Commonwealth agencies. The intention of this RFI is to shape a possible future procurement, particularly in relation to market capacity and methods to deliver the required support.

The DMSS Program is a critical enabler to capability and involves a range of selective marine and port support services. As an initial focus, the DMSS Program will subsume the services currently provided to Navy under the Fleet Marine Services Contract (FMSC) and those currently delivered by the Multi-Role Aviation Training Vessel (MATV).

The overall intention of the DMSS Program procurement is to create a flexible vehicle to enable other potential users (including other Government agencies) and their applicable projects to employ the DMSS Program contracts (where it makes sense to do so). Such opportunities may be considered in collaboration with Industry as part of the RFI. The aim of the DMSS program is to establish consistency in marine support services nationally, maximise and assure capability delivery and where possible, gain economies of scale to ensure value for money for Defence.

The objectives that Defence is seeking to satisfy through this RFI process are three-fold:

- to provide industry an opportunity to share ideas and think outside the square for a potential future procurement that satisfy the objectives of the DMSS Program;
- to consult industry in a cooperative and open environment where industry's view on a range of issues can be obtained, including how best to optimise and innovate the delivery of DMSS services; and
- to enable the Commonwealth to provide background information and context in relation to the DMSS Program in accordance with the Conditions of the RFI.

NOTE: Prospective respondents are to note that the RFI as released does not include all information in relation to this RFI. Respondents may only obtain the additional information after the execution of a 'Deed of Confidentiality'.

Industry Briefing Roadshow: An Industry Briefing will be held in **KPMG Office Level 8, 235 St Georges Terrace Perth from 9:00 AM to 11:00 AM on Tuesday 4 September 2018**.
