TECHNET CYBER 2020

6 MAR

- Expression of Interest - Team Defence Australia

TechNet Cyber 2020 is a forum for the U.S. military, industry and academia to discuss and plan how to achieve persistent engagement, presence and innovation. It provides a prime opportunity to bring your solutions in front of key decision-makers responsible for securing, operating and defending U.S. networks. This event offers Australian export-capable businesses the opportunity to showcase their innovative products and services, make international contacts and potentially identify new supply chain relationships. Exhibiting on the Team Defence Australia stand is free of charge, however, successful companies will be responsible for their own flights, accommodation, freight and other related costs.

Closing Date: Friday 6 March 2020

OTHER GOVERNMENT DEPARTMENT TENDERS

SECURITY MONITORING AND ANALYTICS PROJECT – THREAT INTELLIGENCE PLATFORM

PREM046792**23 MAR**

- Request for Quotation - Department of the Premier and Cabinet SA

The Office for Cyber Security (OCS) within the Department of the Premier and Cabinet is undertaking a program of work that will provide greater visibility of, and ability to respond to cyber threats to the South Australian Government. One key aspect of this is improving the systematic and reliable sharing of threat intelligence data between federal, state and local government agencies as well as key private sector organisations. OCS is therefore seeking a system that can be used to gather, share, store, correlate and coordinate threat intelligence from a variety of sources. The system should also enable the rapid sharing and dissemination of threat intelligence data to appropriate parties, such as SA Government agencies, jurisdictional partners and key private sector organisations so they may act.

AIR 6500 JOINT BATTLE MANAGEMENT AND INTEGRATED AIR AND MISSILE DEFENCE SYSTEM

31 JUL

- Industry Briefing - Lockheed Martin Australia

The Royal Australian Air Force's vision is to transform into a fully networked 5th generation force able to prevail against increasingly complex and lethal threats. Key to this vision is Project AIR 6500, a Joint Battle Management System (JBMS) that will interconnect the many disparate platforms, systems and sensors across the air, land, sea, space, electromagnetic and cyber domains into a collaborative environment that provides shared situational awareness of the battlespace and the ability to rapidly plan responses to threats. This JBMS will co-ordinate and synchronise ADF operations, including the tracking and engagement of forces with an Area of Operations. The JBMS will be deployable in addition to supporting Australian-based capabilities. Lockheed Martin Australia & New Zealand invites interested NZ Defence Organisation to register and attend one of briefing sessions to be held in Auckland, Wellington and Christchurch on 16, 17 & 18 March 2020. Each briefing session will be followed by One-To-One meeting for you to meet Lockheed Martin Australia & New Zealand and to discuss your company's suitability for the project.

Industry Briefing: An Industry Briefing will be held at **NZ Trade and Enterprise Office, Floor 4, 139 Quay Street, Auckland from 8:30 AM to 11:00 AM on Monday 16 March 2020.** Tenderers must register before Monday 9 March 2020 if wishing to attend.
