DEFENCE MARINE SUPPORT SERVICES PROGRAM

6814_NAVY_FCMD

- Notice - Defence Support and Reform Group

The Department of Defence intends to release a Request for Information (RFI) for the Defence Marine Support Services (DMSS) Program in or around late July 2018 / early August 2018. It is intended that the RFI will be followed by a Request for Tender (RFT) in the first half of 2019.

The DMSS Program aims to provide an end-to-end Governance framework and consolidated contracting arrangement for the delivery of certain marine support services (eg operating, training and supply support marine services) that will be progressively considered for implementation across Defence and potentially available for other Commonwealth agencies to access. As an initial focus, the DMSS Program will subsume the retender of the current Fleet Marine Services Contract and the Multi-Role Aviation Training Vessel. Other marine support services may be included in this initial focus and as part of a longer term phased approach within the DMSS Program.

BOEING 757 UNDERCARRIAGE OVERHAUL

RFX_1481**10 AUG**

- Request for Tender - New Zealand Defence Force

The New Zealand Defence Force (NZDF) owns two B757 aircraft which are operated by the Royal New Zealand Airforce (RNZAF). RNZAF has one complete spare undercarriage assembly ready for overhaul which will need to be completed and returned to the RNZAF before the second assembly can be removed from an aircraft and made available for the second overhaul.

Primarily this RFT is to source the services of a certified, qualified and capable organisation to undertake the required undercarriage assembly overhauls within required timeframes.

However NZDF will also look at alternative proposals for the exchange of fully overhauled and certified undercarriage assemblies for the RNZAF assemblies requiring overhaul or the offer of overhauled assemblies for purchase outright should that be evaluated as advantageous to NZDF.

Closing Date: 12:00 PM Friday 10 August 2018
